

# About Battery

## Important Notes

**! Please prepare the right batteries and fully charge them before assembling.**

Assembling the robot without right batteries will cause installation errors and damage the servos.

**! You can charge the batteries via the USB port on the board or buy a battery charger.**

## Purchase Links

Please find the battery description and purchase links on the following pages:

[https://github.com/Freenove/Freenove\\_Battery\\_List/blob/main/18650\\_Flat-Top\\_Unprotected.md](https://github.com/Freenove/Freenove_Battery_List/blob/main/18650_Flat-Top_Unprotected.md)

[https://github.com/Freenove/Freenove\\_Battery\\_List/blob/main/18650\\_Button-Top\\_Unprotected.md](https://github.com/Freenove/Freenove_Battery_List/blob/main/18650_Button-Top_Unprotected.md)

**! Some links in the list may be invalid, please select other available links or purchase by yourself.**
